PRODUCT DATASHEET - INTELLIGENT OPTICAL SMOKE DETECTOR

Addressable Device

TI-002212

DESCRIPTION

The TI-002212 Intelligent Optical Smoke Detector is a point detection device that continuously monitors the air in the protected area to provide the earliest warning of a fire condition. The advanced design of the smoke inlet and optical chamber quarantees a very high resistance to the entry of dust, ensuring a higher level of false alarm rejection without compromising sensing performance. This detector forms part of the Intelli-Sense range of aesthetically pleasing low profile detection and alarm products and is fully compatible* with Intelli-Sense Fire Alarm Control Panels utilising the fully digital communication protocol.

*For BASE COMPATIBILITY see page 2

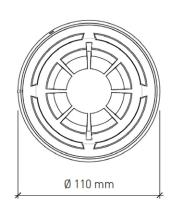

KEY FEATURES

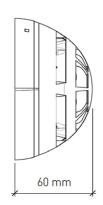

- Multiple fully approved sensitivity settings
- Utilises fully digital protocol with high noise rejection
- Dual alarm LEDs providing 360deg cone of visibility
- Dust Restrict Chamber (DRC) technology offering advanced immunity to airborne contaminants
- Open style mounting base offers easy wiring and low pressure locking
- Programmable using the Device Programming Tool
- 1 year product warranty

TECHNICAL SPECIFICATION

Loop voltage	15Vdc - 40Vdc *
Average standby current	85µA @ 24Vdc
Remote Output Max Current	20mA
Dimensions (inc. base)	110mm x 60mm
Temperature Range (no icing)	-10°C to +55°C **
Max tolerated humidity (non condensing)	95% RH
Max number of loop addresses	240
Weight (standard base included)	130 g

TECHNICAL INFORMATION

STANDARDS & APPROVALS

BS EN 54-7: Smoke Detectors

*Minimum 18V with LED operation **Performance may vary at extremes of range

PRODUCT DATASHEET - INTELLIGENT OPTICAL SMOKE DETECTOR

INTELLI-SENSE

Addressable Device

LED INDICATORS

The detector is equipped with two LEDs mounted to give 360 degree visibility. These indicators display device status and condition*:

NOTE: The LED indicators are managed directly by the fire control panel and the Red (blinking) can be disabled by the installer at the fire control panel or via the hand-held programming unit.

* All functionality may not be available on all control equipment

Red: (blinking) Normal operational status

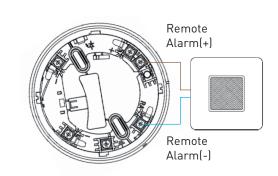

Amber:

Detector in an alarm condition

REMOTE OUTPUT CAPABILITY

A remote output capability is available as a standard feature on this device. This allows the connection of a Remote Indicator Module or a compatible Platform Sounder (check power requirements) to be connected to the detector base terminals and controlled from the fire alarm control panel.

NOTE: If other equipment is connected to the remote output, its supply current must be limited by using an adequate resistor. Consult the TECHNICAL SPECIFICATIONS on page 1 and assess the external device current absorption value. Ensure correct cable polarity.

INSTALLATION - WIRING

The detector must be mounted on a compatible detector base and all analogue loop wiring must be correctly terminated as shown:

- Connections to the detector base terminals are polarity sensitive.
- Care should be taken to ensure correct cable polarity

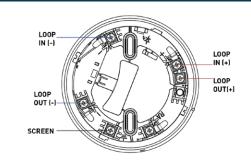

BASE COMPATIBILITY

This device is compatible with the following Intelli-Sense bases and base sounders:

■ TI-002231 Intelligent Base

■ TI-002232 Intelligent Addressable Base Sounder

TI-002233 Intelligent Addressable Base Sounder VID
