

PRODUCT DATASHEET - WIRELESS MANUAL CALL POINT

WAVE-SENSE

Wireless Device

TI-002347

DESCRIPTION

The TI-002347 Manual Call Point (MCP) is a fully intelligent device which is compatible with all Wave-Sense Translator and Expander Modules. The unit has a resettable plastic element, which displays a drop down warning flag when operated. A key is supplied with the MCP for reset and case opening. The product is powered by two batteries with a typical life of 5 years and with same form factor, simplifying stock management. The Manual Call Point can be fitted with an optional transparent cover for protection against accidental operation or with a weatherproof enclosure for use outdoors or in hostile environments.

*The yellow, white, green & blue colour variants are not EN54-11 compliant

TECHNICAL SPECIFICATION

Operating frequency range	865 MHz
Max. radiated power	14dBm (25mW)
Radio signal modulation type	FSK
Operating frequency channels	7
Communication range with the Translator or Expander Module	≤ 150 m (in open space)
IP rating	42
Dimensions	88mm x 87mm x 61mm
Weight (without batteries)	160g
Batteries	2 x CR123A (3 V & 1.2 Ah)
Batteries lifespan (typical)	10 years
Operating Temperature	-10°C to +55°C
Max humidity (non condensing)	95% RH

STANDARDS & APPROVALS

EN54-11: Manual Call Points

EN54-25: Components using radio links & system requirements

**Performance may vary at extremes of range

KEY FEATURES

- High reliability
- Bi-directional wireless communication
- Designed and tested as per EN 54-11 & EN 54-25, certified by IMQ
- 5 Year battery life (in ideal operating condition)
- Standard low cost lithium battery technology
- Resettable element
- Self optimising wireless frequency & amplitude algorithms
- Multiple colours variants available (yellow, white, green, blue)*
- 1 Year product warranty

PROTECTIVE CALL POINT COVER

The Protective Call Point Cover is an aesthetically pleasing low cost clear cover.

Easily fitted to Call Points, it dramatically reduces both misuse and the risk of accidental activation making it ideal for sports halls, manufacturing and processing facilities, and other high traffic areas.

In addition, the protective Call Point Cover ensures that two positive actions are required to activate the Call Point, making it suitable for territories where dual-activation is mandatory.
